Product Name :
Development Module With Sub Modules

Product Code :
LBNY-0005-12400041

www.laboratoryinstrumentindia.com

Description :

The module is also provided with terminals for the power supply of the sub-modules. The development module includes 9 free slots on which electronic expansion sub-modules can be inserted. The connectors give access to the internal input and output points of the sub-modules. Each slot contains connectors in its upper as well as in its lower side.

Technical Specification :

Development Module With Sub Modules
