

Email : sales@laboratoryinstrumentindia.com

Product Name :
Machine Control

Product Code :
LBNY-0005-12400055

Description :

Theoretical topics:

Familiarization with DC motor driving systems
Circuits for the control of direct current machines
Circuits for the control of stepper motors
Familiarization with power devices
The MOSFET
Effect of feedback Fault simulation
Circuits for the control of AC machines
Frequency/Voltage converter

Circuit blocks:

DC/AC Converter
Stepper motor control unit
Control unit
Speed measurement unit.

Technical Specification :

Machine Control

Laboratory Instrument India
