

Email : sales@laboratoryinstrumentindia.com

Product Name :
Digital Circuits

Product Code :
LBNY-0005-12400057

Description :

Theoretical topics:

Flip flop S R, with NOR and NAND operators

Flip flop T and D

Flip flop J K Master Slave

Flip flop J K

Definition, classification and operating principle of the most common shift registers

Synchronous and asynchronous decimal counter

Parity generator

Synchronous and asynchronous 4 bit binary counter

Fault simulation

Adders.

Circuit blocks:

Shift registers

Flip flops

Counters.

Technical Specification :

Digital Circuits

Laboratory Instrument India
