

Email : sales@laboratoryinstrumentindia.com

Product Name :
Multivibrators

Product Code :
LBNY-0005-12400062

Description :

Theoretical topics:

Bistable Multi vibrators
Astable Multi vibrators using the operational amplifiers
Monostable Multi vibrators
Resolution or transition time
Monostable Multi vibrators using the operational amplifiers
Schmitt trigger
Bistable Multi vibrators using the operational amplifiers
Fault simulation
Astable Multi vibrators
Schmitt trigger using the operational amplifiers.

Technical Specification :

Circuit blocks:

Operation modes of a monostable Multi vibrators
Operation modes of a monostable Multi vibrators using the operational amplifiers
Operation modes of a Bistable Multi vibrators
Astable Multi vibrators using the operational amplifiers
Operation modes of a Schmitt trigger
Bistable Multi vibrators using the operational amplifiers
Operation modes of a astable Multi vibrators
Schmitt trigger.
