Product Name :
SCR Triac Power Control

Product Code :
LBNY-0005-12400074

Description :

Theoretical topics:

Thyristor circuit fundamentals
Thyristor component familiarization
SCR half wave rectifier
The four triggering modes
Half wave and full wave phase control
SCR control of a half wave rectifier
Test a Silicon Controlled Rectifier
SCR control of a full wave rectifier
UJT characteristics
UJT half wave and full wave phase control
Bidirectional conduction
SCR DC operation
Gate trigger voltage and holding current.

Technical Specification :

Fault simulation:

SCR half wave and full wave circuit
SCR and UJT half wave and full wave Motor
Circuit blocks of SCR Triac Power Control
Triac AC power control circuit
Silicon Controlled Rectifier (SCR).
