Product Name :
HCT ECL CMOS

Product Code :
LBNY-0005-12400089

Description :

This board allows the study of the following subjects:
Laws and principles for the assembling of interface circuits among the families
Electrical characteristics of the integrated circuits of the various logic families: ECL, CMOS, HCT
Programmable shift registers
Bidirectional transmission gates
Logic gates
Multiplexed counters
Level translators.

Technical Specification :

HCT ECL CMOS
