**Product Name :**  
HCT ECL CMOS

**Product Code :**  
LBNY-0005-12400089

**Description :**

This board allows the study of the following subjects:  
Laws and principles for the assembling of interface circuits among the families  
Electrical characteristics of the integrated circuits of the various logic families: ECL, CMOS, HCT  
Programmable shift registers  
Bidirectional transmission gates  
Logic gates  
Multiplexed counters  
Level translators.

**Technical Specification :**

HCT ECL CMOS

**Laboratory Instrument India**
