Product Name :
Combinatory Logic

Product Code :
LBNY-0005-12400095

Description :

Combinatory Logic allows the study of the following combinatory circuits:
Adders, subtractors, multipliers, code converters, multiplexers and demultiplexers. The board is composed of:

- 4 OR (2 input)
- 2 OR (3 input)
- 1 OR (4 input)
- 4 AND (2input)
- 4 NAND (4 input)
- 2 NAND TRIGGER (4 input)
- 4 NOR (2 input)
- 4 EX OR (2 input)
- 12 silicon diodes
- 8 resistances
- 6 inverters
- 2 NOR (4 input)
- 3 AND (3 input)
- 1 dual in line 16 pin socket
- 12 NAND (2 input)v
- 2 AOI (2 and 3 input)
- Power supply: 5Vdc, 3W.

Technical Specification :

Combinatory Logic
