Product Name :
Bench-Top Drill Press and Spindle Sander

Product Code :
LBNY-0004-770006

Description :

Bench-Top Drill Press and Spindle Sander

Technical Specification :

This 12-speed drill press doubles as an oscillating sander that can be used for efficient contour sanding. With more speeds, more power and more capacity this machine becomes an effective tool for heavier use. The table has a clearance hole for use while sanding. This clever design incorporates a dust collection port so your sanding jobs are less messy.

One of the great features of 13-1/4-inch Oscillating Drill Press is its sanding capability. The drill press can be converted from drilling operations to sanding operations in a matter of seconds with just a few tool-free steps. Oscillation reduces heat build up and leaves a smooth finish when sanding.

Compact Bench-top Design

This drill press is designed for bench top use freeing valuable floor space.

Motor: 3/4 HP, 110V, 1,725 RPM.

Overall height: 38-inches.

Spindle travel: 3-1/4-inch.

Swing: 13-1/4-inches.

Drill chuck: 5/8-inch.

Dust port

Size: 2-1/4-inch.

Table tilt (left/right): 90-degrees.
