**Product Name:** 

**Product Code:** 

## **Description:**

Evaporator selectable via solenoid valves

Adjustable electric heater in the refrigeration chambers as cooling load

Pressure measurement at all relevant points in the system

2 refrigeration chambers: refrigeration and freezing stage

Water-cooled coaxial condenser.

## **Technical Specification:**

Compressor according

Refrigeration capacity: 990W at -5/55°C

Receiver: 1,3L

Power consumption: 685W Cooling load: 0...500W

Measuring ranges

Flow rate water: 20...250l/h

Flow rate refrigerant: 1x 1...11,5l/h; 1x 2...27l/h

Pressure: 5x -1...9bar / 3x -1...24bar

Temperature: -50...300°C.
