| **Product Name :** Microcontroller Trainer | **Product Code :** LBNY-0002-610005 |
|---|---|

**Description :**

Microcontroller Trainer

**Technical Specification :**

A full-featured development board for high pin-count 8-bit Microchip PIC microcontrollers.
It contains many on-board modules necessary for the development variety of applications, including graphics, Ethernet, USB, data logging and others.
Designed for use with surface-mount package versions of the PIC MCU, mounted onto an MCU card.
Arduino/Click Boards

Microcontroller Trainer, Microcontroller Trainer Equipments, Microcontroller Trainer Tools, Microcontroller Trainer Tool Kits, Microcontroller Trainer Manufacturers, Microcontroller Trainer Suppliers from India, China, Kenya
