Product Name :
Industrial PLC Unit

Product Code :
LBNY-0005-12800020

Description :

An industrial PLC with RS485 and RS232 serial communications
Rear panel connectors for six analogue inputs, two analogue outputs, eight digital inputs and eight digital outputs
Ladder logic software is provided on disk
Front panel connections for two digital inputs, two digital outputs, two analogue inputs, two analogue outputs, two voltage sources and one voltmeter.

Technical Specification :

Allen Bradley comprising:
Two input - two output analog combination module
Four way analogue input card
Eight way relay output module
16 way TTL input module
Seven slot I/O rack
Power supply
KE communications interface.
