Product Name :
Rotating Friction Set

Product Code :
LBNY-0005-13000019

Description :

Pulley, load hangers and weights measure the friction. An oil cup is provided for a study of lubrication effect. The set is supplied in plastics box. Friction materials includes a screw jack and bushing of different materials. Rotating Friction Set is part of mechanical Engineering Test Series which provides sets for various experiments on Basic Panel (separately supplied) to study or demonstrate specific engineering principles.

Technical Specification :

Experiments:

Effect of bushing diameter.
Effect of lubrication.
Efficiency of a screw jack.
Efficiency of different busing materials.
