Product Name :
Belt And Chain Set

Product Code :
LBNY-0005-13000023

Description :

The kit is supplied in plastics box. The kit includes belt and chain power transmission systems. Weights and load hangers are used for determination of mechanical advantage and efficiency. Belt And Chain Set is part of mechanical Engineering Test Series which provides sets for various experiments on Basic Panel (separately supplied) to study or demonstrate specific engineering principles.

Technical Specification :

Experiments:

Belt drive system power and efficiency.
Chain drive system power and efficiency.
