Product Name : Logiciel ExAO and Software	**Product Code :** LBNY-0004-780040
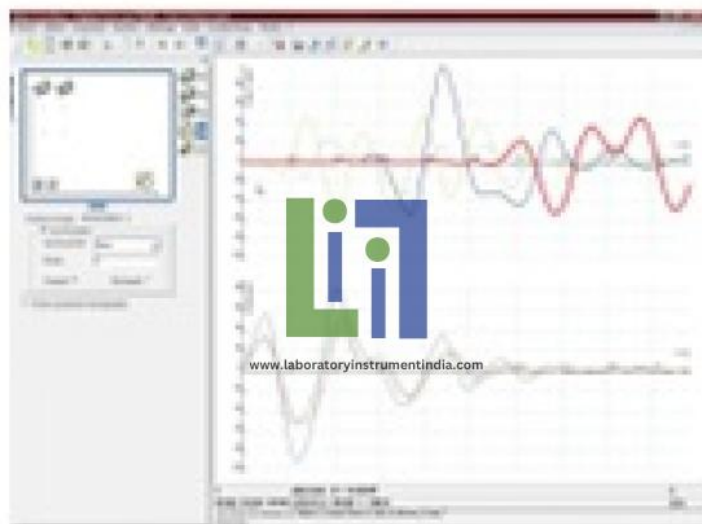

Description :

Logiciel ExAO and Software

Technical Specification :

Logiciel ExAO / Software:
Educational software for recording , displaying and analysing data.
Only one program supporting all compatible sensors, interfaces and all subjects (Biology, physics, chemistry).
Interactive tutorial training inclusive, or equivalent
Provide a library of at least 80 experiments
Import and export data –
Available in at least two of the following languages English, French
Software to be installed on the main PC and to be used through the network by all other PC clients of the laboratory (Site Licence).
Ability to create multiple pages
Ability to exclude and delete data points
Ability to create journal and save them
Ability to undo and redo any step in the experiment

Graphs Features:
Overlay different quantities on the same graph
Show measurements from different sensors on the same display
Curve-fitting (parabolical, sinusoidal, linear, etc.)
Rescaling and Scale-to-fit Tools

Multiple simultaneous display choices (graphs, values tables, analog meter, digital display, histogram, etc.)

Platforms Windows and Macintosh

Oscilloscope display shows up to five traces simultaneously

Resizeable displays

Software that couls control the signal generator outputs, 6 waveforms at least

Built-in Calculator that creates mathematical models and graphs functions

Directly manipulate the scale and axes on the graph.

Laboratory Instrument India
