Product Name :
Clutch Plate Friction Apparatus

Product Code :
LBNY-0005-13300015

Description :

Self-contained, wall mounted
Interchangeable brake lining friction material
3 diameters of friction plate to be supplied
Variable plate pressure using calibrated weights supplied
Comprehensive instruction manual for students and lecturer supplied.
To enable determination of coefficient of friction and minimum torque to maintain rotation
Torque application to be applied using cord and hangers.

Technical Specification :

Clutch Plate Friction Apparatus

Laboratory Instrument India
