Product Name :
Metabolism Tank

Product Code :
LBNY-0004-780051

Description :

Metabolism Tank

Technical Specification :

Metabolism Tank:

Chamber allowing simultaneously the measurements of the carbon dioxide and the oxygen gas

Volume of the chamber: 250ml

Study the cellular respiration and measure the production of the carbon dioxide by germinating seeds.

Supplied with 2 stoppers to seal the inner environment to avoid exchange between the atmosphere and the sample
