Product Name :	Product Code :
Drop Counter Sensor	LBNY-0004-780055

Description :

Drop Counter Sensor

Technical Specification :

Drop Counter sensor:
Use the Drop Counter to perform accurate, automatic titrations. Record the number of drops or calibrate the drop size to record volume of titrant added during a titration.
High accuracy, ruuber sealed to protect from acids and bases
Measures up to a of 40 drops per second (even the very small drops less than 1mm)
LED drop indicator
Equipped with a UV filter that rejects all visible light

Laboratory Instrument India
