Ĺ	Email : sales@laboratoryinstrumentindia.com
Product Name : Voltage Sensor	Product Code : LBNY-0004-780058
Description :	
Voltage Sensor	
Technical Specification :	
Voltage Sensor : Measure the electrical energy generated by an e Measure the energy generated by a wind turbing Measure the voltage across components in a sir Measure the induced voltage in a wire coil as a Includes at least 2 crocodile clip adapters Color coded wire cables (red & black)	e or other renewable energy source mple circuit
