Product Name :
Computer Control Electronic Pendulum Impact Testing Machine

Product Code :
LBNY-0005-1490003

Description :

Features:

- Impact energy displayed intuitively on the LED screen in a large font size.
- Specially designed control panel, beautiful and easy-to-use.
- Capable of communications with a computer, enabling computer software controlled operations.
- Controlled by a fast and accurate FPGA unit.
- Integrated with a large storage for testing data recording and saving.
- Support for automatic/manual printing.
- Software logic protection on installing, latching, unlocking and releasing, eliminating operation mistakes.

Technical Specification :

Computer Control Electronic Pendulum Impact Testing Machine
