i;	Email : sales@laboratoryinstrumentindia.com
Product Name : Electro Hydraulic Servo Microcomputer Control Static Load Anchor Testing Machine	Product Code : LBNY-0005-1550006
www.laboratoryinstrumenti	ndia.com
Description : Features: Dynamic display of load, displacement, time and real-time test Closed loop control of channels such as load, displacement, e Servo-controlled loading. Controllable pre stress. Load is appl	tc. Smooth switching in between. ied to specimen uniformly.
Support for holding at constant load or constant displacement. Software online notification of current working status and oper Capable of loading at constant speeds of various levels. Capable of automatic loading or holding by loading program so Domestically pioneered process-oriented design of testing cor procedures and a wide range of instruction types. Also suppor Engineers may set up testing projects then operators may em difficulty of the operations and the requirement in the skills and	ating procedures. ettings. htrol. Provides users with intuitive testing control ts dynamic instruction parameter assignment. ploy the projects for testing, greatly reduced the

Technical Specification :

Electro Hydraulic Servo Microcomputer Control Static Load Anchor Testing Machine
