Product Name :

Set Of Sectioned Components For Hydraulic Plants

Product Code :

LBNY-0005-1600006

www.laboratoryinstrumentindia.com

Description :

Special explanatory technical plates show each sectioned component explaining its operation with notes, drawings and technical data. The Set Of Sectioned Components For Hydraulic Plants includes some of the most important components, used in waterworks, such as pumps, valves, gauges. The use of contrasting colours according to a pre-established code simplifies the informative process as well as the learning one. In sectionizing each component the best care has been taken to evidence all the interesting constructive detailed features.
