Product Name :
Truck Air Brakes Trainer

Product Code :
LBNY-0005-1860005

Description :

The Truck Air Brakes Trainer is designed to allow for training of tractor/trailer combination vehicles and trucks. The system consists of air valves, reservoirs, brake chambers, air intake tubing, fittings and multicolored components. All meet regulations and are the same valves or components which would be installed on a real truck.

Technical Specification :

Truck Air Brakes Trainer
