Product Name :
Double Circuit Brakes Cutway

Product Code :
LBNY-0005-18600037

Description :

Double Circuit Brakes Cutway model is carefully sectioned for training purposes, professionally painted with different colours to better differentiate the various parts. A braking adjuster is placed between the pump and the (rear) drum brake in the circuit in order to avoid the rear wheels locking during the braking phase. Wall panel representing a Double Circuit Braking System. The same devices used in the circuit have been sectioned and added in the panel to clearly show their operation. As in real conditions, Double Circuit Brakes Cutway is operated by a hydraulic pump connected to the disc brake and a drum brake. Many parts have been chromium-plated and galvanized for a longer life.

Technical Specification :

Equipment Layout: On Panel
Operated: Manually
Dimensions: 110 x 60 x 40(h) cm.
