Product Name :
Switchable Capacitor Battery

Product Code :
LBNY-0005-1840008

Description :

Switchable Capacitor Battery system with which different capacitance values can be connected to the mains for reactive power compensation. Each switching level can be controlled separately: internally, through 4 toggle switches, externally, through 4 control inputs Coil operating voltage: 220 Vac

Four switching levels each consisting of 3 capacitors in star connection with discharging resistors:

level 1 (b1 coil): 3 x 2 ¼F/450 V

level 2 (b2 coil): 3 x 4 ¼F/450 V

level 3 (b3 coil): 3 x 8 ¼F/450 V

level 4 (b4 coil): 3 x 16 ¼F/450 V

Compensation power: max 1360 VAr at 50 Hz, 380 V.

Technical Specification :

Switchable Capacitor Battery
