Product Name :
Needle Smelter

Product Code :
LBNY-0001-800016

Description :

Needle Smelter

Technical Specification :

Needle Smelter

It melts used needles safely.

Needle Smelter as a right measure to dispose used needles to prevent potential needle sticking accidents.

Needle Smelter disposes used needles completely and easily by melting needles with heat of 1,500° to be melted into powder. It can process various syringe needles from 15-31 gauge with any length within one second.

Needle Smelter is small and easy to operate.

Technical Specification:

Capacity: 15 - 31 gauge needles

Disposable time: 80 -100 needles per minute

Durability: Semi-permanent

Weight: Size (W x H x D): (230-250) mm, (100 - 120) mm, (110 - 130) mm

Heating capacity: 1500 oC

Ambient temperature 5 to 40°C

230 V +-10% , /50 Hz
