Product Name:
Needle Smelter

Product Code: LBNY-0001-800016

Description:

Needle Smelter

Technical Specification:

Needle Smelter

It melts used needles safely.

Needle Smelter as a right measure to dispose used needles to prevent potential needle sticking accidents. Needle Smelter disposes used needles completely and easily by melting needles with heat of 1,500? to be melted into powder. It can process various syringe needles from 15-31 gauge with any length within one second. Needle Smelter is small and easy to operate.

Technical Specification:

Capacity: 15 - 31 gauge needles

Disposable time: 80 -100 needles per minute

Durability: Semi-permanent

Weight: Size (W x H x D): (230-250) mm, (100 - 120) mm, (110 - 130) mm

Heating capacity: 1500 oC Ambient temperature 5 to 40°C

230 V +-10% , /50 Hz
