Product Name :
Solar Thermal Sun Simulator

Product Code :
LBNY-0005-1930004

Description :

The Solar Thermal Sun Simulator includes a stationary frame, sun simulator lights with heater assembly, and power box and cable. The light positions are adjustable. This system requires a Wire electrical service. The Solar Thermal Sun Simulator for use indoors. This simulator provides thermal energy to simulate solar thermal power for commercial and residential systems. Instructors are often faced with challenges in teaching solar when faced with inclement weather. The Solar Thermal Sun Simulator provides the heat energy needed to simulate the sun's solar energy when the solar thermal installation system is being used indoors.

Technical Specification :

Solar Thermal Sun Simulator
