Product Name :
Solar PV Installation

Product Code :
LBNY-0005-19300011

Description :

Solar PV Installation teaches how to install solar PV applications, emphasizing working with copper tubing, considerations in tubing installation, plastic pipe assembly, and installation of the key electrical, mechanical, and fluid systems. Focuses on the preparation needed for success, tubing selection and insulation, key skills required like soldering and brazing, and plastic pipe specifications and installation.

Features:

Strong Depth and Breadth of Content
Built for Self-Paced Learning
Engaging Interactions
Text and Audio
Stunning 3D Animations.

Technical Specification :

Solar PV Installation
