Product Name :
Statics Moments Kit

Product Code :
LBNY-0005-1980008

Description :

The different configuration is possible to enhance understanding of the principles of moments, levers, beams and the relationship of distance and forces applied on a beam. The Moments experiment kit enables students to understand the relationship of weights and beam balance.

Features:

Applied student Learning via Building and experimentation

Hands-on Learning

Clear and concise pictorial assembly instructions enhance the learning experience

Multiple experimental capability per self-contained kit

Tool-less assembly.

Supplied with a detailed instruction manual, covering the theory of Moments including multiple practical experiments designed to further develop the students understanding in this field.

Technical Specification :

Statics Moments Kit
