Product Name :
Basic EFIS Trainer

Product Code :
LBNY-0005-2010006

Description :

The EFIS used in is a versatile unit that includes several features representing a modern EFIS display. The Basic EFIS Trainer provides an introduction to a general aviation Electronic Flight Instruments System (EFIS).

EFIS Features:

- External GPS Receiver with database
- Autopilot Interface
- GPS Interface
- ILS Interface
- NAV Interface
- External Remote Compass System Interface
- H.S.I Resolver Interface
- Emergency Power Battery
- Altitude Encoder Interface

Technical Specification :

EFIS Display includes the following:

- Stabilized heading tape and digital readout
- Turn rate indicator
- Digital Altitude
- Horizon line, pitch and roll indicators
- 4 x EGT

CDI/ Glide slope Indicators
Angle of attack (AOA) indicator
Air speed digital readout, and trend
Bugs to mark a desired heading, airspeed, or altitude.
VSI
Elevator trim indicator
Clock/timer
Auto pilot Status Indicator
OAT
Winds aloft arrow
Slip/skid ball
Voltmeter
Timer
Altimeter setting display
G-Meter

EFIS Display Characteristics:

Display Type:LCD, TFT
Backlight: atleast 800 nits
Resolution:854 x 480 color pixels
Size: 7.0diagonal (178 mm).
