Product Name :
Indoor Solar Energy Training System

Product Code :
LBNY-0002-620002

Description :

Indoor Solar Energy Training System

Technical Specification :

The solar panel is lightweight, easy to carry and install, made with high efficiency monocrystalline solar cells, heavy duty anodized aluminum frame, the corrosion-proof aluminum frame and tempered glass coating shield the panel from weathering and wear.

Charging 9V battery in emergency, suitable for the vehicles in outdoor work, travel or camping training, and the vehicles are put for a long time.

Easy to install and completely maintenance-free.

The solar panel kit uses the power of the sun to provide endless green, environmentally friendly power to our devices without having to worry about running out of power.

The solar panel is ideal for RV, camping, climbing, hiking, boats, or in an emergency.

Moveable Solar Module Frame

Light Intensity Control Installed
