Product Name :

Stove,kerosene,single-burner,pressure

Product Code :

LBNY-0018-2200010

www.laboratoryinstrumentindia.com

Description :

Stove, kerosene, single-burner, pressure

Kerosene stove designed to provide safe and sufficient heat for medical sterilization applications.

Hand-operated plunger pump allows pressurisation of fuel tank and control of flame intensity

Pressure, max: 1.3 bar

Comprises of a fuel tank, vapour burner and pot holder

Single burner with top plate

Fit with overpressure safety valve

Material: Heat and rustproof, steel or brass

Capacity kerosene fuel tank: 1.2 to 2.5 L

Diameter flame holder: 5-7 cm

Fuel consumption: 0.4-0.6 L/h

Height: 20-29 cm

Technical Specification :

Weigh and volume:

Estimated volume: 28.196CDM

Estimated weight: 2.855Kg.
