Product Name :
Surg.inst.,curettage /SET

Product Code :
LBNY-0020-220005

www.laboratoryinstrumentindia.com

Description :

Muzeux forceps are used in preference to Pozzi forceps because they are less traumatic. Vaginal retractors permit a better access to the cervix than a speculum.
A fully functional environment with theatre, sterilisation and resuscitation rooms, as well as trained personnel must be available. This set should be considered part of any minimal investment in a health facility with surgical/obstetrical activities.

Technical Specification :

Kit contents:

- 1 x Dilators,uter,Hegar,d-e,3-4to17-18mm
- 1 x Retractor,vaginal,Doyen,45x85mm
