Product Name :
Therapeutic spread,sachet 92g

Product Code :
LBNY-0022-220006

www.laboratoryinstrumentindia.com

Description :

Ready-to-use Therapeutic Food (RUTF), spread, 150 sachets of 92 g per carton. The RUTF paste may be used in climatic extremes from the arctic to tropical zones and may be the sole source of food, except for water and breast milk, during the period of use. Ready-to-Use Therapeutic Food (RUTF)paste, is a high-energy fortified food to be used by humanitarian agencies, governmental and non-governmental organizations for the treatment of Severe Acute Malnutrition (SAM) in any cultural setting in accordance with guidelines for the outpatient care and management of Severe Acute Malnutrition.

Technical Specification :

RUTF paste is ready to eat, directly from the sachet without prior cooking, mixing or dilution. RUTF paste is portion controlled: each unit has the same nutritional value for control and monitoring of dietary intake. During the period of SAM treatment, RUTF paste is the sole source of food, except for breast milk in the case of breast-fed infants, during the period of SAM treatment.
