Product Name :
Powder Fire Extinguisher

Product Code :
LBNY-0004-820054

Description :

Powder Fire Extinguisher

Technical Specification :

Powder Fire Extinguisher

Fire Extinguisher

Capacity : 10 lb, A.B.C.

10 lb. Dry Chemical ABC Fire Extinguisher, features a steel cylinder with a baked-on polyester enamel coating to stand up to harsh environments. In addition, it offers aluminum valves, handles and levers that are lightweight yet extremely durable and corrosion resistant.

Extinguisher uses a monoammonium phosphate based dry chemical agent and is completely rechargeable. Rated for use on Class "A" (trash, wood and paper), Class "B" (liquids and gases) and Class "C" (electrical) fires, this extinguisher provides the widest, most practical range of fire protection and is ideal for use in homes, office buildings, warehouses, motor vehicles, boats, farms and woodworking areas.
