Product Name :
Portable AC Welder

Product Code :
LBNY-0004-820059

Description :

Portable AC Welder

Technical Specification :

Portable AC Welder

Specifications:

3-in-1 TIG/MMA/Pulse Welder

Multifunction full parametric control

Gas time adjustable

Outstanding duty cycle

Super Stable arc force and post flow control

Compact and lightweight

IGBT inverter technology

Super stable AC/DC inverter technology

Current stabilization and auto increase

Industry-standard DIN sockets

Adjustable output current range 20A to 250A

Outstanding 30,000 MTPF hours cooling

Overheat, over current, and over/under voltage protection

Works with a range of rod sizes

SAA, EMC, CE and C-Tick certified

Power Voltage: Single Phase 220V *IsYo, 50160112

Power Plug: 154 AU Standard

Output Current Range: 20A-250A
Duty Cycle: TIG: 35% @250A,64% @200A
MMA: 40% @230A,60% @180A
Efficiency 85%/o
Insulation Class: F
Shell Protection Grade: IP21
TIG and MMA Connections: Quick Connect Brass Fittings
Welding Electrodes: Up to 4.0mm
MMA Electrode Cable Length: 1,8m
Earth Clamp Cable Length: 1.2m
TIG torch Cable Length(4-5) in
Power Cord Length: (1.8-2)m
Generator Recommended: 8kVA
Accessory
GIANTZ Inverter Welder
TIG torch Lead
Electrode Holder Lead
Earth Clamp Lead
Foot Pedal
Wire Brush
Welding Mask
