Product Name :
House Installation Trainer

Product Code :
LBNY-0002-620006

Description :

House Installation Trainer

Technical Specification :

Electrical Safety Rules for working in laboratories
Variety of wiring experiments based on above operational panels
Study of Protective Devices Panel
Study and use of Measurement Devices
Understanding working of various types of lamps including tube, led & other high intensity lamps
Circuit symbols, number codes of installation cables
Wiring diagrams
Circuits with electrical sockets and lamps
Dimmer circuits
Circuits with motion detector
Circuits with toggle switch
Circuit with crossover switch
Circuit with impulse switch
Staircase time switch
Measurements in faulty circuits
