Product Name :
Power Supply and Electrical Protection Unit

Product Code :
LBNY-0002-830018

Description :

Power Supply and Electrical Protection Unit

Technical Specification :

Power Supply & Electrical Protection Unit

Solar Panel

Battery 12 Vdc

Charger, cables, and accessories

Electrical protection and electromagnetic protection devices

Lightning rod, ground rod, and conductors.

LED Indicators For Easy Monitoring-This solar battery controller integrated with 3 LED indicators?green,yellow,and red? for low voltage(over discharge protection),charging and high voltage(over charge protection).

Quick and Easy Connection-This solar battery charger controller coming with Versatile quick connect and quick disconnect clips SAE Plug Cable, quick and easy connection to solar panel,battery and load appliance. Users don't worry about the Positive(+) and Negative(-).

Full Protection and More Safe-This solar charging regulator protects over charge protection, over discharge protection, over load protection.
