

Email : sales@laboratoryinstrumentindia.com

Product Name :
Automobile Brake System Model

Product Code :
LBNY-0004-10100034

Description :

The product is mainly composed of a bottom plate, a small motor, large (small) belt wheel, brake disc, hydraulic cylinder, oil pipe, a support frame Product outline dimension: 300 * 200 * 150mm. Motor starting voltage: DC6-8V; brake disc diameter: diameter of 110mm. Hydraulic cylinder size: ?22x30mm

Technical Specification :

Automobile Brake System Model

Laboratory Instrument India
