

Email : sales@laboratoryinstrumentindia.com

Product Name :
Motion Simulation Demonstration Device

Product Code :
LBNY-0004-10100048

Description :

The product working voltage AC220V ,composed of a LED simulation screen, an acceleration knob and a deflection knob. Adjust the deflection knob, and the particles do the horizontal projectile motion. By adjusting the acceleration knob, the particles do uniform acceleration of linear motion.

Technical Specification :

Motion Simulation Demonstration Device

Laboratory Instrument India
