

Email : sales@laboratoryinstrumentindia.com

Product Name :
Vertical and Horizontal Wave Demonstration

Product Code :
LBNY-0004-10100062

Description :

Instrument can complete the following experiment contents: the relationship between P-wave propagation, wavelength and the local oscillator frequency, pulse wave propagation, wave reflection and wave properties, standing wave phenomena. Products as a supporting rod suspension spring type, mainly composed of a rack, a spring steel sheet, coil spring, connecting rod, interlining, the source of vibration.

Technical Specification :

Vertical and Horizontal Wave Demonstration

Laboratory Instrument India
