

Email : sales@laboratoryinstrumentindia.com

Product Name :
Electric energy meter

Product Code :
LBNY-0004-10100080

Description :

Transparent plastic shell single-phase watt hour meter.
electrical equipment for secondary school physics to explain the structure of the electric energy meter and measurement of single phase active power.
Rated voltage 220V, 50HZ, rated current 10A.

Technical Specification :

Electric energy meter
