Product Name :
Transmitter and GPS Antennas

Product Code :
LBNY-0002-860002

Description :

Transmitter and GPS Antennas

Technical Specification :

Transmitter and GPS Antennas

Type: Cross-Yagi or similar rugged design antenna plus coaxial Cable 6.0 length with in-line Surge protection

Frequency: 402.0 MHz to 403.0 MHz

Polarization: LHCP and RHCP

Gain: VSWR: Mounting: Azimuth 360° and elevation adjustment

Materials: Aluminium, stainless steel corrosion resistance

Type: Bullet, trimble type or similar

Weather proof housing

Frequency: GPS L1 1575.42 ±1.023MHz

Output Impedance: 50?

Gain: 28dB ± 3dB

VSWR: 2.0 maximum

Azimuth coverage: 360° (omni-directional)

Elevation coverage: 0°-90° elevation (hemispherical)
