

Email : sales@laboratoryinstrumentindia.com

Product Name :
Electromagnetic Wave Sending and Receiving de

Product Code :
LBNY-0004-101000173

Description :

It demonstrates wave characteristics of electromagnetic wave. It mainly consists of a set of high frequency oscillator, a set of receiver?, a set of receiver ? and a set of receiver ?. It can demonstrate sending, receiving, modulating and tuning of electromagnetic wave, as well as wave characteristics of electrical resonance and electromagnetic wave by adopting measures of sound, light and electric meter indication.

Technical Specification :

Electromagnetic Wave Sending and Receiving de

Laboratory Instrument India
