

Email : sales@laboratoryinstrumentindia.com

Product Name :
Electromagnetic Wave Interference Diffraction

Product Code :
LBNY-0004-101000174

Description :

It consists of microwave transmitter, microwave receiver and accessories. By using characteristic of 3cm wave band electromagnetic wave, it can perform demo experiment of electromagnetic wave phenomenon and microwave directional communication safely, simply and efficiently.

Technical Specification :

Electromagnetic Wave Interference Diffraction

Laboratory Instrument India
