**Product Name :**  
Audio Power Amplifier

**Product Code :**  
LBNY-0004-101000182

**Description :**

It can be compatible with low frequency signal generator or teaching single source, amplify output low frequency signal using as power output, to finish characteristic testing experiments in physics electrical teaching for resistor, capacitor and inductor.

**Technical Specification :**

Audio Power Amplifier

**Laboratory Instrument India**
