Product Name :
Optical Demonstrator

Product Code :
LBNY-0004-101000295

Description :

It is used to do optical demonstration experiment of natural science course in primary school; it can do experiments, such as: light straight-line propagation, pinhole imaging, reflection and refraction of light, convergence and divergence of lens and amplification effect of convex lens.

Technical Specification :

Dimension (L*W*H CM): 26.1*12.1*15.4
