Product Name :
Turning fork 512

Product Code :
LBNY-0004-101000315

Description :

It is used to demonstrate occurrence of sound and interference of sound wave. It is a single fork with frequency of 512Hz and basic instrument of acoustics. It can determine sound velocity and verify transmission of sound wave, as well as do other acoustic experiments.

Technical Specification :

Turning fork 512
