Product Name :
Friction Demonstrator

Product Code :
LBNY-0004-101000333

Description :

It consists of digital display panel, experimental friction block, driving track and manual handle. It is used to visually observe the change of friction and changing process of static friction between objects, with battery power supply and manual experimental power.

Technical Specification :

Dimension (L*W*H CM): 32.6*15.5*16.3
